Kansas City-based Parisi Artisan Coffee first began roasting coffee in Kansas City in 2006 by a longtime local Italian family with several established, successful artisan food companies under the parent company, Paris Brothers, Inc. All Parisi coffees are small-batch, drum roasted at the company's Kansas City production facility off Southwest Boulevard near the historic Crossroads Arts District. Parisi Artisan Coffee & Kitchens operates out of the same coffee roasting facility in a high-class baking and cooking kitchen, whipping up master creations since 2013.
